DAILY DEMOCRAT-FORUM

LARGEST CIRCULATION OF ANY DAILY PAPER IN ANY MISSOURI TOWN OF 5000 POPULATION

VOLUME 5. MARYVILLE, MISSOURI, TUESDAY, NOV. 10, 1914. NO. 137.

IS VOTING TODAY

LINCOLN TOWNSHIP STANDS FOR BETTER ROADS.

SOUTH PART OPPOSES

Despite Two-Thirds Majority Required, Workers Expect to Swing $25,000 Bond Issue for Highways.

That the voters of Lincoln township will today place the note of approval by a two-thirds majority or more, on the proposition to vote $25,000 in bonds for road and bridge improvement in that township, is the opinion of the leaders there at noon today. They expect a hard fight, especially in the south end, but with a much larger vote to get out, even the two-thirds stumbling block is expected to be removed, and the improvement enterprise favored.

"We need new culverts, bridges and miles of dirt roads repaired in this township, before cold weather sets in," said Grant Elrod, of the firm of Gates & Elrod, coal dealers, of Elmo, at noon today. "But some of the large farm owners of the south end are fighting the proposition to vote bonds because of the increase in taxes it necessarily would cause."

Cast Light Vote?

"But with nearly every voter in the north end favorable to the proposition, we expect to carry the thing through this time. We believe we can overcome the two-thirds majority handicap and also pile up a few votes to the good, if the believers in high improvements will get out and vote as willingly and as surely as the opponents are doing."

At noon today there had been but sixty-six votes cast at the Elmo voting booths, while in the election a week ago, 319 votes were cast for the three leading parties for United States senator, from that precinct. Although the Dawson precinct registered but 73 votes for the three leading candidates for that office last Tuesday, it is believed they will come nearer today to getting out a full vote than Elmo will, because the opponents are better organized and determined, local workers say.

Would Mean $50,000

The proposition which was submitted last summer for the first time, lost by only a few votes of a two-thirds majority.

Only Polk and Union townships succeeded in voting bonds last summer. As the state is supposed to duplicate the amount of bonds voted by any township for highway betterment, Lincoln would be enabled to expend $50,000 for road and bridge improvements, if the proposition being submitted today, carries.

ELECTION COST CONN $140.

The law requires that all candidates shall file expense statements within thirty days after election.

IT'S THE OPEN SEASON

For Fur Bearing Animals, But Hunters Should Have State License.

The season for killing fur bearing animals opened November 1st and will continue to February 1st. Hunters should fortify themselves with licenses, because the sale of furs is evidence that the parties have been hunting, and if they do not have licenses, prosecutions will be easy for the officers of the state game department. The statute prohibits the buying or selling of pelts which have been taken in the closed season. Dealers should be careful in buying furs to know that they have been taken in the open season.

The squirrel season closed Nov 1. The season for ducks, geese and brants is also open.

The season for deer and turkeys also opened November 1st. Only male deer can be killed and deer cannot be chased with hounds. In the southern counties of the state deer are reported coming into the state from Arkansas where they are being chased by hounds.

The Rev. R. L. Finch, pastor of the First Christian church left this morning for St. Joseph to attend the annual meeting of the Missionary society of the Christian denomination to be held in St. Joseph today. TAXES ARE $14,000

CITY INCREASES REVENUE IN YEAR NEARLY $600.

LAND VALUATION LESS

Real Estate Assessment Decreases, But Levy on Same Goes Up—Payments Begin This Week.

Maryville will receive a total of $14,005.32 in real estate, personal and merchants' taxes this year, if all is collected that is due the city. This is an increase over last year's tax total of $599.41. Of the aggregate levy this year $7,973.64 comes from real estate, $5,227.01 from personal holdings and $804.67 from merchants' stocks.

There is one noticeable feature in this year's assessments for Maryville, in that while the real estate assessment is less by $3,340 this year than it was in 1913, the tax on the same kind of property has increased by $31.58. Neither does the figures shown on the city books appear to "jibe" with those furnished by Assessor Edward Hamlin to the county clerk recently. The statement filed by him shows this year's assessments in Maryville land to be $1,156,550, while the city tax books gives it at $1,129,945.

Sue Delinquents.

The assessor's report also shows that Maryville real estate last year was assessed at $1,135,470, and the city books give it as $1,133,285.

The payment of city real estate, personal and merchants' taxes became due yesterday. At 10 o'clock this morning twenty-eight residents already had paid their annual "fines" and business was just beginning to pick up. No penalty will be attached to tax payments until January 1, when a 1 per cent penalty is added. Each month thereafter that a tax remains unpaid an additional 1 per cent penalty is tacked on to one's assessment until paid.

The city also is beginning suits this week on persons who have failed to pay poll and dog taxes, which became due last summer. There are quite a number on both lists who have neglected to pay the dues, that are now being hunted by the city collector, S. E. Selecman.

Is 7 Mills on the Dollar.

The tax is determined by levying 7 mills on each dollar's valuation. This would mean the levying of a tax of 7-10 of a cent on property valued at $1.

The valuation shown in the assessment, however, does not indicate that is the entire value of property assessed. Instead, it generally means but about one-third of the actual value and in some cases, especially relative to farming land in Polk township, according to Assessor Hamlin, it is but about one-fourth of the actual value.

For instance, the assessment shows Maryville real estate is worth $1,129,945 this year, while in truth it is $3,400,000 or more. The assessment for Polk township shows, too, that about one-half of the valuation is contained in Maryville alone. The entire township assessment this year is $4,135,335.

Showing is Good.

The Maryville property valuation for last year and this year, as shown on the city books, follows:

	1914.	1913.
Realty	$1,129,945	$1,133,285
Personal	741,593	663,534
Merchants'	114,825	108,590
Total	$1,965,409	$1,986,363

The following taxes were levied in Maryville for last year and this year:

	1914.	1913.
Realty	$ 7,973.64	$ 7,942.06
Personal	5,227.01	4,702.88
Merchants'	804.67	760.97
Total	$14,005.32	$13,405.91

RECORD IN EXPORT

EUROPEAN WAR BOOSTS AMERICAN MARKETS, REPORT SHOWS.

NEAR DOUBLE IN YEAR

Shipments of Beef and Sugar for the Month Exceed That of a Year Ago.

War's demand on American granaries, mills and packing houses, as shown in an analysis by the department of commerce, resulted in record exportations of breadstuffs, meats and other food articles during September.

Many trade currents, broken by the European upheaval, have shifted to the United States, France demanding immense quantities of fresh beef, South America and Europe buying large amounts of flour, while nearly all the markets formerly supplied from other sources are importing millions of pounds of sugar.

The value of foodstuffs sold abroad last month was $68,490,889, nearly double that of September a year ago, when the total was $38,786,624.

Record Wheat Exports.

The war demand for wheat brought exports for the three months ending with September to the highest point ever reached in any corresponding period. Total exports, including flour in terms of wheat, in the three months aggregated 89,250,000 bushels, compared with 59,000,000 bushels in that period a year ago. For September the exports of flour were about normal, but the wheat sold abroad was more than twice that exported during the month. The wheat total was 26,000,000 bushels. France bought 7,572,000 bushels, the United iKngdom 6,640,000 and The Netherlands 2,201,000, while other European nations bought 5,390,000 bushels. More than 2,560,000 bushels were exported to Canada, while another effect of war was the shipment of 580,000 bushels to Brazil.

Exports of flour to Latin-America nearly doubled those of September a year ago.

Big Jump in Beef.

Exports of fresh beef in September amounted to 7,000,000 pounds, eleven times that sent abroad in September, 1913. The 3,000,000 pounds of canned beef exported was eight times the amount sold in September last year.

The increase in refined sugar exports was tremendous. In September 52,290,773 pounds were shipped abroad, compared with 3,924,540 one year ago.

Other gains for September shown by the department figures were:

	1913.	1914.
Oats, bushels	318,928	10,780,165
Corn, bushels	670,464	1,152,043
Oatmeal, pounds	624,823	2,842,222
Rice, pounds	1,486,995	10,443,817
Canned salmon, pounds	2,849,669	4,569,811
Barley, bushels	250,000	2,750,000

Exportations of cattle and sheep decreased, compared with September last year. More than 1,600 cattle were sold abroad in September, 1913, compared with about 900 last month. The decrease in sheep shipments showed about the same percentage.

Anderson Craig, state senator from this district, has been appointed by Governor Elliott W. Major on a junketing committee of three, which will be expected to visit the various state institutions of Missouri and report the conditions of each to the next legislature. The trip through the state probably will begin soon. Those appointed on the junketing committee with Senator Craig were Representative R. R. Correll of Randolph and J. H. Sommerville of Mercer counties.

Craig and Correll are Democrats and Sommerville is a Republican. A junketing committee usually is appointed prior to each legislative assembly. An auditing committee, to examine the accounts of state departments also was named this week by Governor Major.

ANDREW COURT BEGINS.

Start Trial of R. B. Coffey of Stanberry—Local Attorneys Attend.

The November term of the circuit court of Andrew county began at Savannah yesterday with several Maryville attorneys in attendance. Probably the most important case to be tried during the entire term was called there yesterday in the case of R. B. Coffey of Stanberry, charged with the murder of Mrs. Myrtle Fancher of Savannah last August. Judge E. E. Porterfield of Kansas City is presiding at this term.

Whether the trial of Coffey will be completed now depends on what action Judge Porterfield will take of a petition attorneys for Coffey have presented, in which they ask for more time in which to prepare for the trial. If the request is granted, it is believed the case will be continued until November 16 or later.

Mrs. Fancher was found dead in the back yard of her home early the morning of August 13 last. She is said to have been a member of a party that included Coffey and which spent several hours in St. Joseph the night the alleged murder occurred. Coffey was arrested several days later.

The Nodaway county case of Mrs. Mary Livasay against S. G. Gillam and Joseph Jackson, Jr., to set aside a deed of trust has been transferred from the Nodaway county court to Andrew county and probably will be tried at this term of court.

VIEWS OF BRITISH EXPERTS

Say Allies Are on Offensive on Both Fronts.

London, Nov. 10.—The armies of the allies are now on the offensive on both fronts. At three points in the area of hostilities—in Silesia, in East Prussia and in Alsace—forces of the allies are on German soil, and for the first time since the outbreak of hostilities conditions seem to presage, in the opinion of British military observers, a reversal of the roles of the contending armies.

Up to the present time Germany has been fighting in the territory of its enemies, but now it would appear to be more or less seriously menaced from the east by the victorious Russian armies, the advance guards of which are less than 200 miles from Berlin. It is true that there was a brief Russian invasion of East Prussia during the early stages of the war, while the French have for a long time held their position in Alsace, but the latest development in the Russian advance, if the interpretation placed on it in London is not all wrong, is the most important of the campaign up to the present time.

It is merely speculation, of course, to say that Germany may be forced forthwith to retire from Belgium, or even cease its offensive in this arena. In certain areas of France and Belgium the allies are taking a vigorous offensive, but it is too early yet to predict that Germany may not renew its smashing tactics in an effort to break through the line and that there will not be much hard fighting around Ypres.

In any event, German retirements from Belgium probably would be very slow, as the forces of Emperor William have made the entire country behind their battle line one vast fortification, with trenches even more carefully prepared than those they are still holding in France.

Woman Calls Siegel Wretch.

Geneseo, N. Y., Nov. 10.—Eight of the jurors have been selected who will determine whether or not Henry Siegel, bankrupt merchant and banker, was guilty of a criminal act in the conduct of his New York business. A woman, said to be a creditor of one of the Siegel stores, caused some excitement just after court adjourned when she rushed up to Mr. Siegel and made a move as if to strike him, at the same time calling him a "wretch" and predicting dire things for him. Detectives removed her from the court room.

TWO HOG REMEDY PLANTS ARE CLOSED

Cholera Virus Infected With Foot and Mouth Bacteria.

Chicago, Nov. 10.—Hog cholera virus manufactured at the Union Stock Yards has been found to be infected with germs of the foot and mouth disease and two plants making the remedy were closed by Dr. Samuel E. Bennett, chief of the federal inspectors in the district. All the virus on hand, worth about $20,000, was condemned. Seventy-five inspectors were detailed to visit all farms to which the virus has been shipped since Oct. 1.

Suspicion that the serum was infected was aroused when the hoof and mouth disease broke out in localities where no cattle, sheep or hogs had been shipped from the Union Stock Yards. Hogs were attacked in these localities and it was learned that they had been treated with virus for cholera. A bacteriological examination of the virus proved the infection.

WELSH IS HELD TO DRAW

Newspaper Experts Hold Chicagoan Evens Up by Whirlwind Finish.

Milwaukee, Nov. 10.—Freddie Welsh of Wales, lightweight champion of the world, was held to a draw in a fiercely fought ten-round contest here with Charlie White. Under the law a referee's decision could not be given, but it was the opinion of the newspaper experts that the Chicago boy evened up rounds by his whirlwind finish.

It was a dazzling exhibition at boxing skill. The Chicagoan, bewildered by the champion's cleverness, did not get warmed up to his task until near the close of the fight.

Russian Cruisers Bombard Eregli.

Paris, Nov. 10.—The protected cruisers Kagul and Pamiat Merkooria of the Russian Black sea fleet bombarded the Straits of Bosphorus and the coal depots off Eregli. The Turkish fleet went out to meet the Russian warships, but soon returned. A number of vessels at the port of Eregli, which is 128 miles northeast of Constantinople, were destroyed during the bombardment by the Russians.

EXTEND CATTLE QUARANTINE

Three More States and Canada in Ban—Cool Weather a Help, Experts Say.

Colder weather with rain in states affected with the foot and mouth disease has been hailed by the department officials at Washington as a powerful ally in their campaign to suppress the rapidly spreading live stock epidemic. Encouraging reports came from some sections during the day, but news of more affected districts caused the department to extend the federal quarantine to include Delaware, New Jersey and Rhode Island, and to bar shipments from Canada.

Thirteen states now are under quarantine. The other ten are: Massachusetts, New York, Ohio, Pennsylvania, Indiana, Illinois, Maryland, Wisconsin, Iowa and Michigan. Not many cases of the disease have been found in Canada. The quarantine against the dominion is to prevent the return of affected cattle cars to the United States. It will stop shipments of cattle into the United States valued at approximately $8,000,000 a year.

114,192 Head Imported.

Figures by the bureau of foreign and domestic commerce show that for the nine months ending with September, imports from that country aggregated 114,192, valued at $5,050,491. For the months of September last, 26,796 cattle were imported, valued at $1,070,216.

The effect on the meat situation in the United States of the Canadian quarantine cannot be estimated immediately, according to department officials. It will depend upon whether imports from Canada have been for immediate slaughter or for fattening purposes. If most of the Canadian cattle are brought in for fattening the shutting off of imports would have no immediate effect upon the supply and price in this country, as they would not be put on the market until late spring in any event. On the other hand, if the imports have been for immediate slaughter, the embargo will lose no time in being felt.

Must Stop Stock Movement.

Secretary Houston of the Department of agriculture has made the following announcement:

"The treatment or the killing of a single animal in a herd has been tried in an outbreak and did not prove effective. The remainder of the herd soon became affected and had to be killed.

"Veterinary authorities of the United States are agreed that the only method of combating the disease is to stop all movement of stock and material which have been subjected to any danger of infection and to kill off without delay all herds in which the disease has gained any foothold. The dead animals are buried in a covering of lime.

"The owner of the slaughtered animals is reimbursed on a basis of the appraised value of the herd, the appraiser being appointed by the state. The expense of the whole process of condemnation and disinfection is divided equally between the federal and state governments.

"At present the chief danger lies in the possibility of there being concealed sources of infection. Every effort is being made to convince farmers of the seriousness of the disease and to urge upon them to report at once to state or federal authorities all suspicious cases of sore mouths or lameness."

SOFT FLUFFY HAIR IS FIRST AID TO BEAUTY

If your hair is not fluffy, soft and lustrous, is falling out, streaked, faded, brittle, or full of dandruff, and if the scalp itches, do not think it must always be that way, for pretty hair is only a matter of care and the use of the proper hair dressing. Your hair is like a plant—if neglected it soon dies, while with a little attention it keeps fresh and beautiful.

Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate your hair to grow long, thick, fluffy, soft and lustrous. It removes all dandruff with one application and quickly stops itching head and falling hair. It is the ideal hair tonic and scalp treatment—contains nothing injurious and is delicately perfumed.

T. J. Parle or any druggist can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful toilet necessity, for it will surely give your hair the beauty and charm of youth.

10-CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and Stomach Regulator in the World—Work While You Sleep.

Get a 10-cent box.

Put aside—just once—the salts, pills, castor oil or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, severe colds, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.

QUARANTINE BOOSTS MARKET

Cattle Receipts Increase at Kansas City and Prices Weaken—Hogs Higher.

With Chicago and St. Louis markets closed today, receipts were more liberal here than they have been, 34,000 cattle arriving. Killing grades sold freely at steady to 25 cents lower prices, cows selling nearest steady, except that canning grades were neglected, packers concentrating their operating facilities on getting out dressed beef. Stockers and feeders found a restricted outlet and prices are 50 to 75 cents under a week ago. Shippers in the country are advised to keep stockers and feeders at home this week. As soon as the quarantine in Illinois, Iowa and the other states affected is raised there will be a better market on them.

The feature today was the sale of Gilbert Barr Shorthorns, which were being pointed for exhibition in the American Royal show. As the show has been declared off, the cattle were sold on the market today at $10.75, weighing 1,935 pounds average, grossing $208 a head, a record for this market. Other good steers sold at $10.40, yearlings at $10, and short fed steers at $8.25 to $9.40. Panhandle and Colorado killing steers sold at $6.50 to $7.25, stockers and feeders lower, some panhandle stock calves at $7, which were worth $7.75 a week ago, and Colorado feeders at $6.40, considered worth $7 last Monday. Quarantine arrivals were liberal, and sold in line with cattle in native division, best steers $6.25 to $7.25, canning grades dull.

Receipts of hogs were 18,000 head, market 10 to 15c higher. Order buyers purchased 5,000 hogs early, paying the full advance, before packers started, but the market continued active to the close, packers participating in the higher prices paid. Top price was $7.90, at which price a number of loads sold of all weights, bulk of sales $7.40 to $7.90.

Sheep receipts were 17,000, market weak on some early sales, but the close was steady. Best lambs brought $9, others around $8.75, fat yearlings $7, ewes $6. Feeding stock is quiet, but is a quarter higher than a week ago, lambs worth $6.50 to $7.25. Prospects favor a good sheep and lamb market balance of the week, particularly on fat grades.

NEWS OF SOCIETY AND WOMEN'S CLUBS

(Continued from page 3.)

souri federation, in a talk before the assembled club women, gave the story of Deborah, the first club woman known in history. Not all club women know the story, and that their work is told of in Bible history through the efforts of Deborah, a prophetess of Israel, to redeem her people from bondage. Deborah lived in Mt. Ephraim, between Ramah and Bethel. Her people were tyrannized over by Jabin, the king of Hazar in Palestine. Deborah felt that something must be done to help the people under her jurisdiction, and so she summoned Barak to deliver them from Jabin's tyranny, prophesying success. Through her, forty years peace was secured. Deborah's triumphal ode in the book of Judges is a masterpiece of Hebrew poetry and her sublime faith in the success of her work is an inspiration today to all women.

Mrs. Chivis made one of the most splendid talks at the convention, and a fine synopsis of it was given by Mrs. M. G. Tate, one of the delegates from this city, at the last meeting of the Twentieth Century club.

Dinner Guests.

Mr. and Mrs. G. R. Epperson were dinner guests today of Mr. and Mrs. Henry Wells, living south of the city.

Guest of the Andersons.

Mr. and Mrs. A. J. Anderson of Grand avenue entertained at dinner today Carl Boedecker of Carrington, Wyo. Mr. Boedecker is a friend of John Anderson of Chugwater, Wyo., a son of Mr. and Mrs. Anderson, and is on a business trip through Missouri.

Miss Sturm Gives Dinner.

Miss Grace Sturm was the hostess of a dinner given last night to the members of the Conservatory faculty and a few other friends. White chrysanthemums were employed for table decorations. Plates were laid for Mr. and Mrs. H. B. Schuler, Prof. P. O. Landon, Mrs. Mary Landon, Miss Eleanor Smith, Miss Alice Porter, Miss Geneva Wilfley, Dr. E. C. Braniger and the hostess.

Isadore Loeb, dean of the faculty of the University of Missouri at Columbia and professor of political science and public and constitutional law, made the principal address at the assembly of State Normal school students this morning. Dean Loeb is an authority on American government and political science in general.

Miss Nellie Trullinger and Misses Edna and Verdie Garrett went to St. Joseph this morning to spend the day with friends.
